Meeting Topic: The Fourth in the Series “Staying at Home with Resources”

Focus: “Is a Reverse Mortgage the Answer?” Is this a solution to remain at home using the equity in one’s home? What happens if the taxes or insurance bills are not paid? What is the outcome for a couple if only one name is on the deed and a spouse dies? Learn more about reverse mortgages from the consumer perspective. How do Housing Counselors prepare their clients to access the equity in their homes by selecting a reverse mortgage?

Speaker: Carmen Jones-Burke, Reverse Mortgage Counselor, Certified Housing & Credit Counselor, Consumer Credit Counseling Service of Maryland & Delaware, Inc.

About the Speaker: Mrs. Jones-Burke has been an employee of the organization since 1997. She underwent extensive training through NeighborWorks and became a Housing Counselor specializing in foreclosure prevention.

Mrs. Jones-Burke came to the agency with a BA in Psychology and Social Work. She has a varied background in both the non-profit and for profit arena. Due to this varied experience Mrs. Jones-Burke is able to adapt counseling techniques to address the varied needs of all clients with empathy and compassion while helping to guide them towards realistic outcomes.
